

Smoke Detector | VdS | 10 year lifetime

General information

This VdS-certified Nedis® smoke alarm guarantees maximum protection of your home or office by alerting you at the earliest stage of a fire. Both the sensor and the integrated lithium battery have a lifetime of 10 years; the detector notifies you when it is time for replacement. It is important to test the functionality on a regular basis. To make things easy, this VdS-certified smoke alarm features a big button on the front to test or mute the alarm.

Features

- VdS approved, guaranteeing high quality standard
- 10 year lifetime of both sensor and battery
- Large test/mute button
- Silent pre-warning (flashing LED)
