NEW UNIVERSAL SENSOR

The FIBARO Door/Window Sensor 2 combines the functionality
of the 2 devices: contact and temperature sensors in one easy
to use product. It also has double tamper protection.
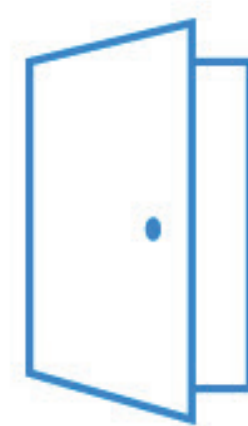

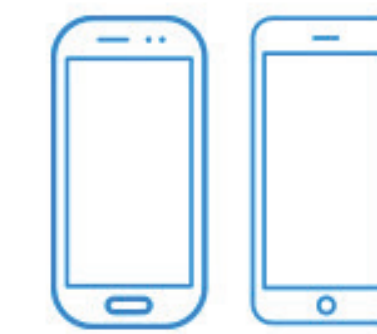

| Contact Sensor | Tamper protection | Temperature sensor | An element of the security system | Android and iOS mobile devices | Smart notifications | Advanced scene available |

CONTACT SENSOR

The FIBARO Door/Window Sensor 2 is easily mountable on doors,
windows, garage doors, gates, roller blinds, closets, and more.
Use it for monitoring the opening/closing of doors and windows.

TEMPERATURE SENSOR

Control the temperature anywhere in the home.
The FIBARO Door/Window Sensor 2 measures the temperature
thanks to built-in temperature sensor.

21,25 $^\circ$C

TWO DECIMAL PLACES

TAMPER PROTECTION

For safety reasons, the FIBARO Door/Window Sensor 2 casing
is protected from being opened or destroyed.
