# Instructional Guide

Aluminum iPhone Stand

**1.** Attach stand to the base.

2. Tighten the two hex screws on the bottom of the base using the included allen wrench.

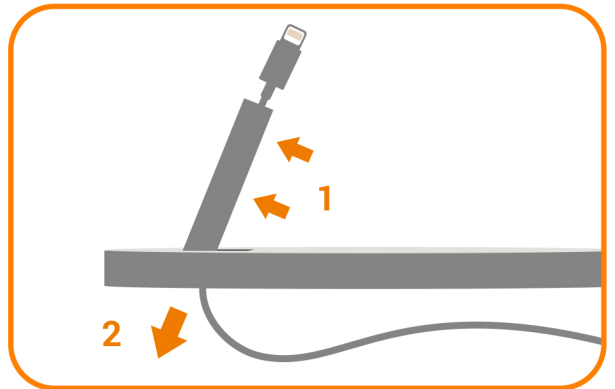

**3.** Thread your Lightning Cable through the hole in the base.
Please use stock Apple Lightning Cable only.

4. Push the cable into the stand and pull down until only the Lightning connector is visible.

5. Press the cable into the trough on the bottom of the base.

6. Place the assembled Stand on a table and attach your iPhone to the Lightning connector.
