| Chapter 1 : CONNECTING THE HEADSET

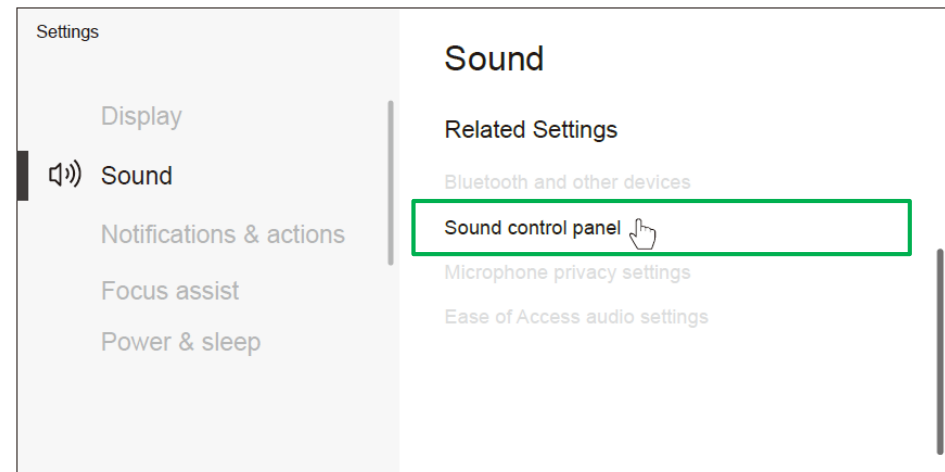

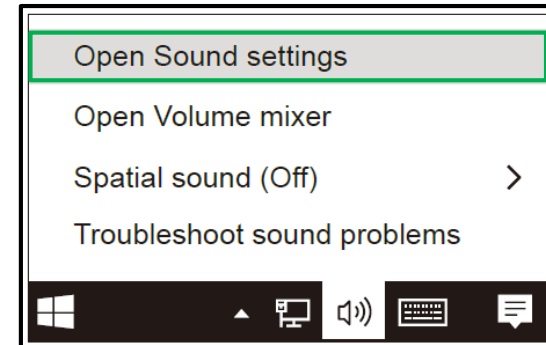

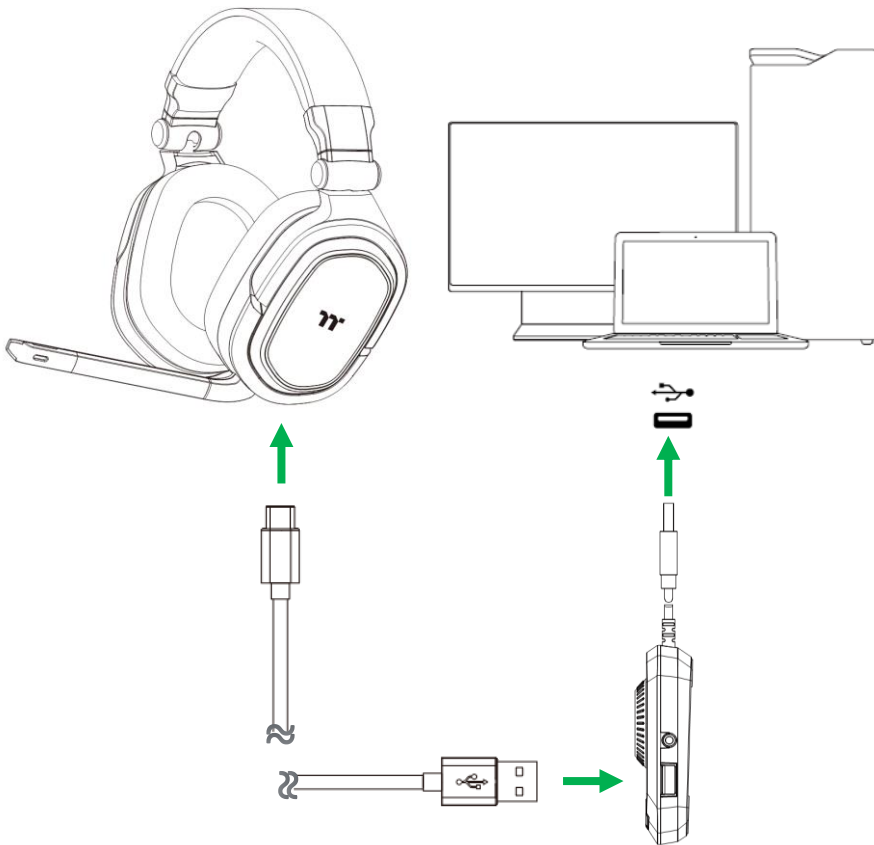

Setting Up With PC :

Plug USB control box connector into your PC. The [Hardware found] notice will appear.

Playback Device Settings Step 1 :

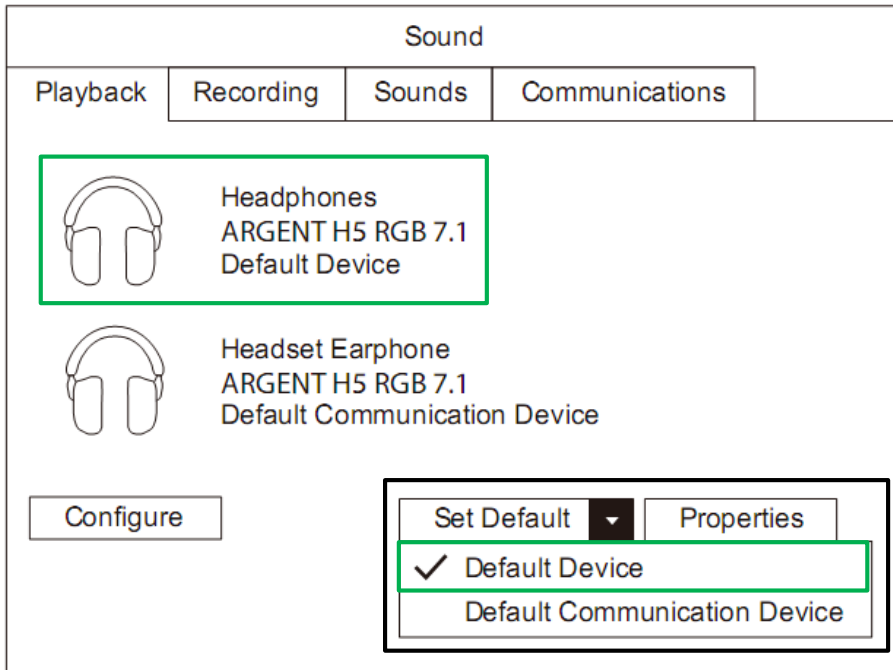

Right click speaker icon -> Select Open Sound settings -> Select Sound control panel.

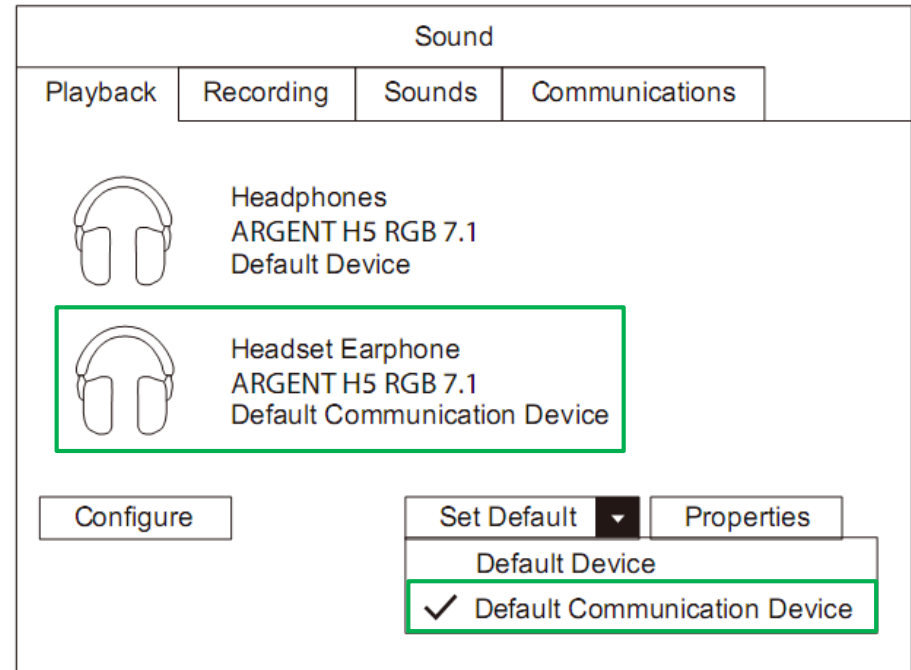

Playback Device Settings Step 2 :

Set Default Device to "Headphones".

Playback Device Settings Step 3 :

Set Default Communications Device to "Headset Earphone".

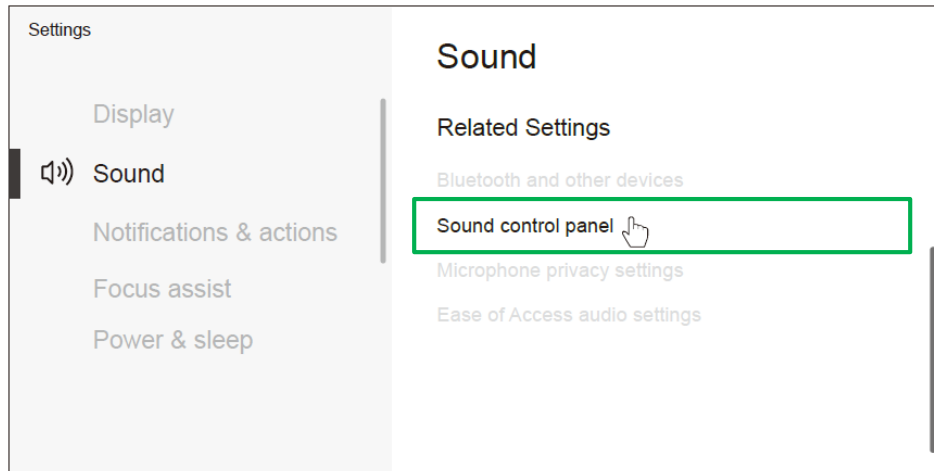

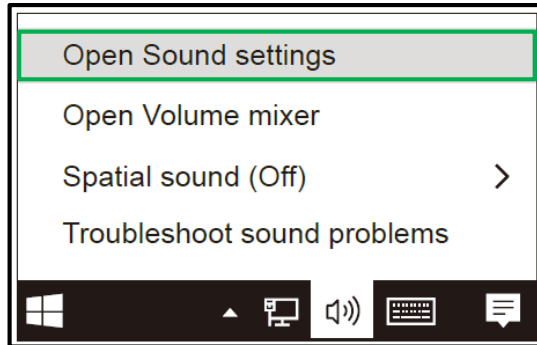

※ The Headphone (ARGENT H5 RGB 7.1) does not support system volume adjustments use the control box to adjust only.

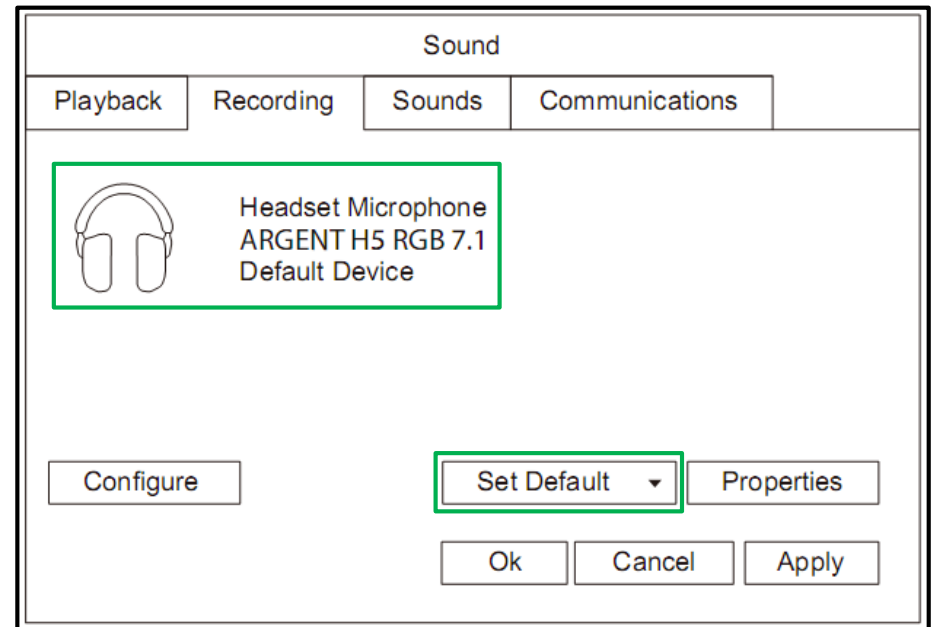

Recording Device Settings Step 1 :

Right click speaker icon -> Select Open Sound settings -> Select Sound control panel.

Recording Device Settings Step 2 :

Set Default Device to "Headset Microphone".

Setting Up With Mobile Devices :

To use the headset with a mobile device (or other device) with a headset jack (4 pole CTIA), connect the 3.5mm plug directly into the headset jack on your device.

Setting Up With Nintendo Switch :

To use the headset with Nintendo Switch, connect the 3.5mm plug on the headset directly to the 3.5mm jack on the Nintendo Switch.

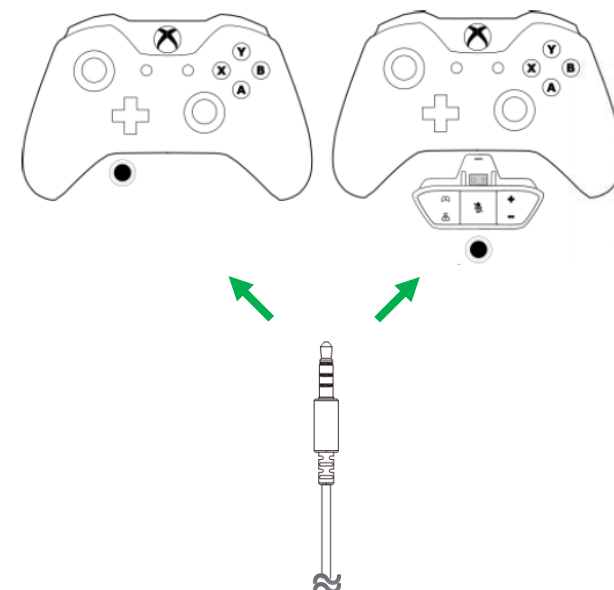

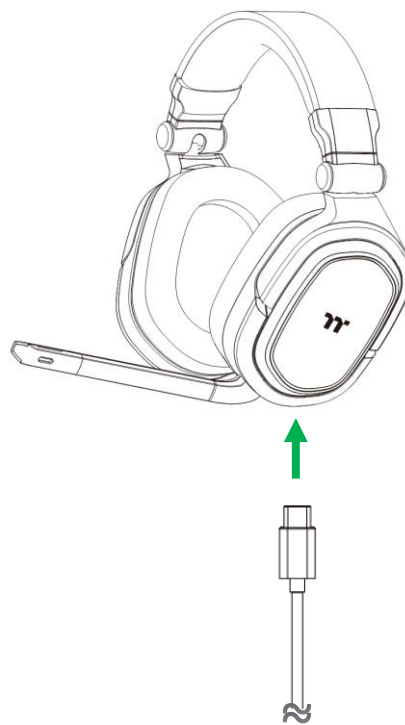

Setting Up With PlayStation Audio :

To use the headset with PlayStation, connect the 3.5mm plug on the headset directly to the PS game controller and follow these steps :

Settings -> Devices -> Audio Devices -> Choose "Output to Headphones" and select "All Audio".

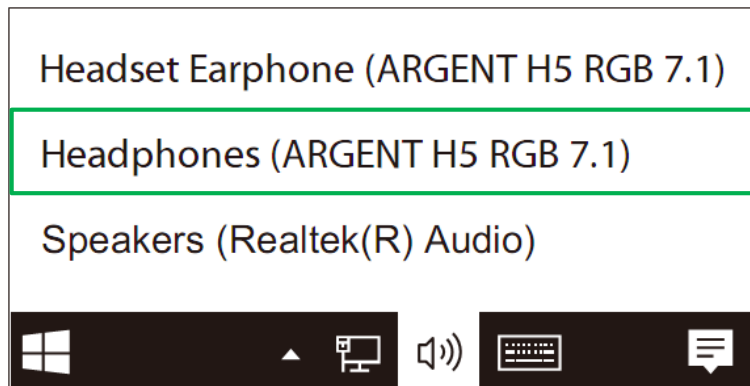

Setting Up With Xbox Audio :

To use the headset with Xbox, connect the 3.5mm plug on the headset directly to the 3.5mm jack on the Xbox controller. ***If your Xbox controller does not have a 3.5mm jack, you will need the Xbox Stereo Headset adapter (sold separately) that plugs into the Xbox controller (pictured below).**

Step 1 :

Left click speaker icon and select "Headphones (ARGENT H5 RGB 7.1)".

Step 2 :

Press game/chat balance button and rotate the wheel to increase the in-game volume and decrease the voice chat volume or vice versa.

Press the TT Logo button to mute or unmute the game/chat balance volume.

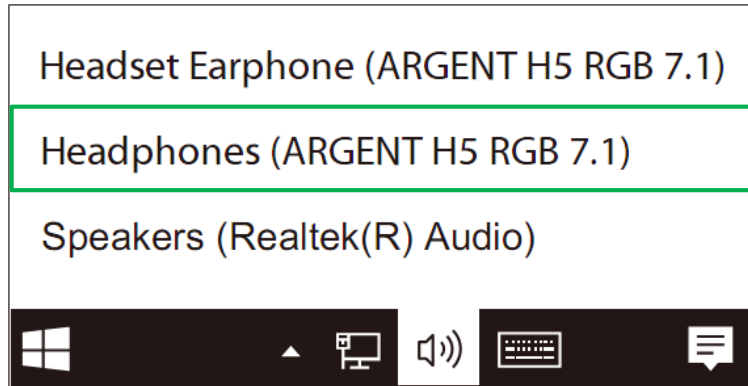

When muted the TT logo will light up to indicate the headset is set to mute.

Step 1 :

Left click speaker icon and select "Headphones (ARGENT H5 RGB 7.1)".

Step 2 :

Press DTS button to enable or disable the 7.1 Surround Sound. Rotate wheel to increase / decrease the 7.1 Surround Sound volume.

Press the TT Logo button to mute or unmute the 7.1 Surround Sound volume. When 7.1 Surround Sound is muted the TT logo will light up to indicate it has been set to mute.

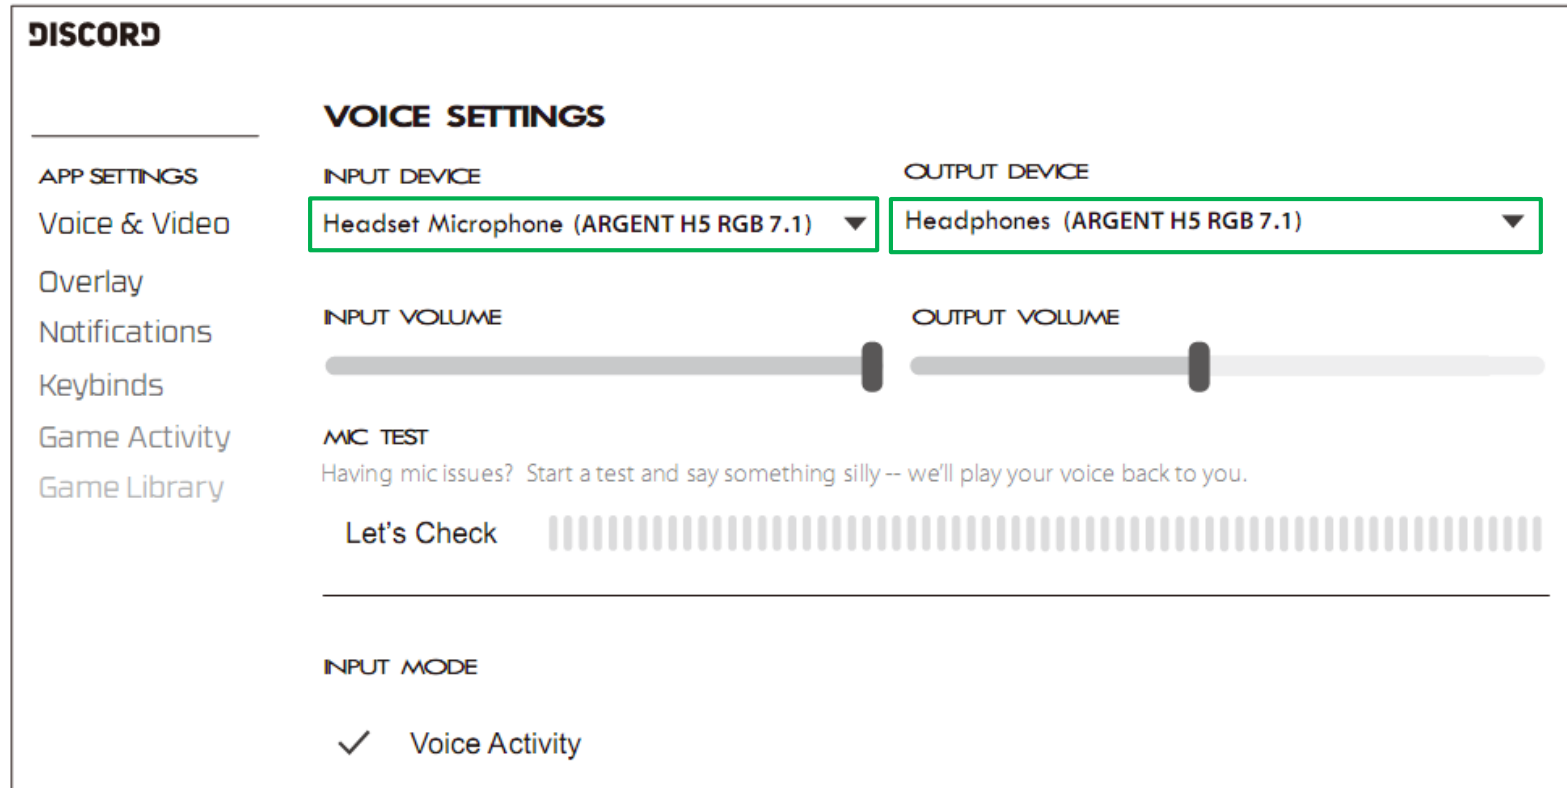

Step 1 :

Set Input Device to "Headset Microphone (ARGENT H5 RGB 7.1)".

Step 2 :

Set Output Device to "Headphones (ARGENT H5 RGB 7.1)".

| Chapter 2 : TT iTAKE INSTALLATION

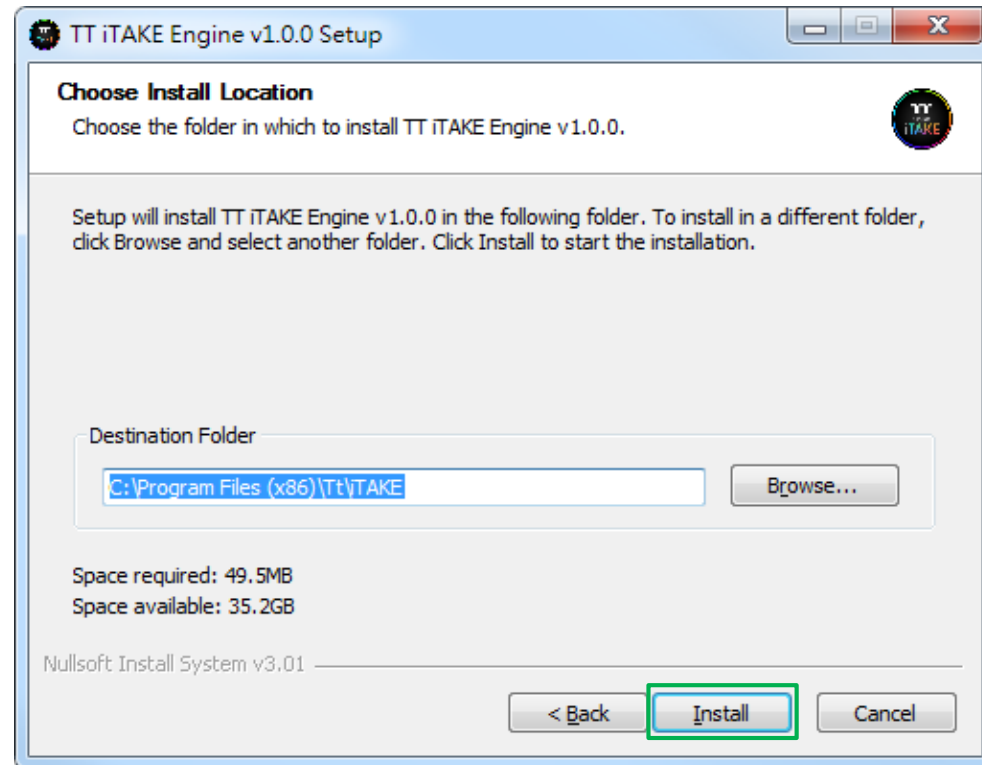

Step 1:

Launch the setup executable file (.EXE) file and click Next.

Step 2:

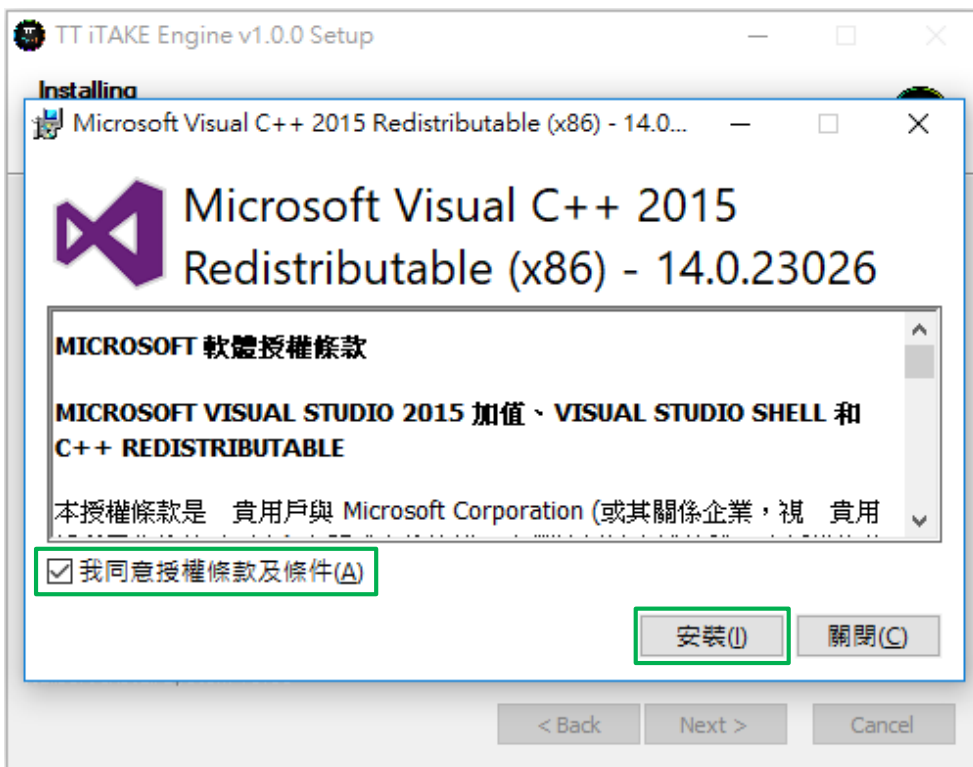

Click Install to begin the setup process.

Step 3:

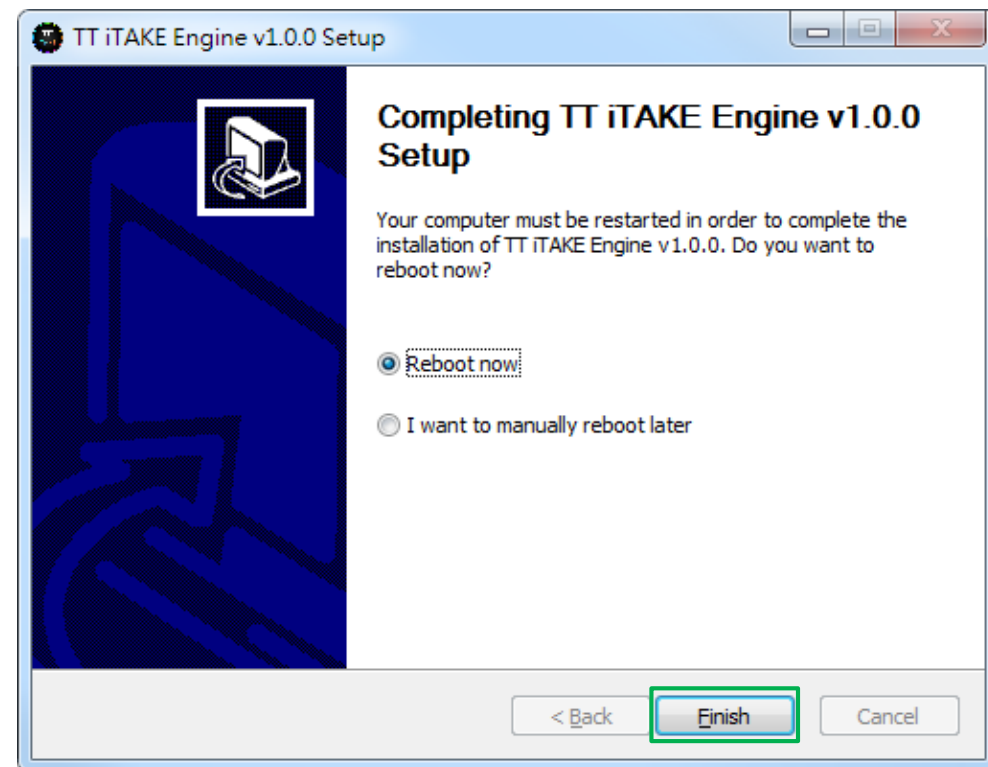

Once setup is complete, you will also need to install the Microsoft Visual C++ 2015 Redistributable Package.

✘ Without installing the Redistributable Package, the software will fail to launch.

Step 4:

Click Finish to complete the installation.
